

SCCS Family Feature

The Malatesta Family

WHERE DID YOU COME FROM? WHAT BROUGHT YOU TO THIS AREA?

Hello! We are Adrian, Chasity, Enzo (1st grade), Marco and Teo (Pre-K)!

We moved to Bainbridge in August of 2017 from the Fremont neighborhood of Seattle, where we had lived since 2010. With three little boys, we sought a community near Seattle (so Dad could commute to Amazon) but close to nature and a place where we could connect with other families

WHY DID YOU CHOOSE SCCS?

When we moved, our oldest was just about to enter Kindergarten, and we were looking for a place to start school. Ms. Kilbane was gracious and welcoming, and SCCS felt like home when visiting.

As it turned out, Chasity, who had taught high school science for 12 years, was able to join the SCCS faculty in leading STEM education

WHAT HAS YOUR EXPERIENCE AT SCCS BEEN LIKE THUS FAR?

We have appreciated the sense of family and community as we have gotten to know and care for everyone at SCCS. Enzo, Marco and Teo have many friends and enjoy getting to know students of all grades. The sense of belonging that is prevalent at the school, is something for which we are deeply grateful.

WHAT DOES YOUR CHILD LOVE ABOUT SCHOOL?

All of the boys love their friends and teachers. We are also fortunate, since Chasity teaches there, to join events as a family. Some of our favorite activities are the Science Olympics and the Robotics competition.
