

PRINCIPAL CORNER for February 15th
Learning in Community, Living our Faith

Students across our school agree on the top two reasons they love SCCS:
WE HAVE GREAT FRIENDS AND WONDERFUL TEACHERS.
Some of the many things each class likes about SCCS include:

EXPLORERS and Pre-K

Painting and playing with Legos
Playing at recess
The Whole Classroom!

KINDER

Prayer Circle, Music, Art
Going to Church
Free Choice
Everything!

1st/2nd

Complicated, Challenging Math
Going to the Library and Mass with 7th/8th grade buddies
Learning and Doing Projects
Seeing all of my friends every day of the week.

3rd/4th

Everyone gets the attention they need because of our small class sizes.
Math is fun and creative.
In Science we get to explore outside.
I like that we have Mass.
When we want to do something, we do it as a team.

5th/6th

The students and teachers are super welcoming.
Our school comes together on Monday mornings like a family.
Because of small classes, the teachers can give us more attention.
Our coaches encourage you to keep trying, even if you mess up.

7th/8th

I've been at SCCS such a long time (7 years);
it's changed me, making me a nicer person.
Taking my buddy to the library, helping them to stay focused and calm during mass
Everyone in our school is just very supportive of each other:
it's something to look forward to each day.

Our students' love learning in community and living their faith.

With joy,
Susan Kilbane
